May 16 – July 13, 2024

Gallery FIFTY ONE, renowned for its fine art photography and works on paper, celebrates its 25th anniversary with the captivating exhibition “Notre Mer,” running from May 16 to July 13, 2024. Specializing in 20th- and 21st-century photography, the gallery has built a strong international reputation since its founding in 2000.

The “Notre Mer” exhibition delves into the enchanting beauty, dreams, and poetry evoked by the sea, highlighting our deep connection and dependency on this vital element. This theme, dear to many artists, urges reflection on our impact and the necessity of its conservation.

Featuring a diverse range of artists, including Katrien De Blauwer, Harry Gruyaert, Jacques Henri Lartigue, Deanna Templeton, and Arpaïs Du Bois, the exhibition showcases various perspectives on the sea. From photography to works on paper and sculptures, each piece offers a unique sensory, aesthetic, and poetic experience. Highlights include ethereal photography and stimulating pieces that challenge our perceptions and invite us into the world of the sea.
